To whom it may concern:

I am writing to express my interest in the Data scientist position at Walk with path. I am a newly graduated Cand.Scient in Physics and Mathematics with a wealthy of knowledge.

Most of my time in my education has been spend working with mathematical modelling, data analysis and performing experiments. Another aspect of my education has been research work. I am proficient in research which begins as desk research and morphs into designing experiments and analysis/quality control of data.

I am currently playing around with machine learning algorithms in python, and I am also interested in building electronics using arduino.

I have excellent communication skills in both English and Danish and I am able to communicate results to different types of audiences. I am able to work both independently and within a team environment. I view myself as a cheerful and optimistic person who is not shy when met with new challenges and responsibilities.

I look forward to hearing from you about this position.

Sincerely,

Nathan Hugh Barr
